Mr. Ed Gastle
Marketing Manager
JDSU Inc

Subject: JDSU Certifier40G Approval

Effective immediately, METZ CONNECT is pleased to announce the approval of the Certifier40G NGC4500. This approval is based upon evaluation of the Certifier40G versus network analyzer by METZ CONNECT Labs.

Certifier40G is approved for use in both Permanent Link and Channel certification testing with all of our Class F_A, Class F, Category 6_A/Class E_A, Category 6/Class E and Category 5e/Class D system warranties.

For Class F_A systems, the approval includes all parameters to the frequency range of 1000 MHz. Certifier40G measurements above 1000 MHz were also found to have good correlation with network analyser, and can be used for information.

The following configuration of Certifier40G is required.

NGC4500 software version 5.1.2 or higher
Certifier40G Reporter software version 5.1.2 or higher

Channel testing for Class F _A , Class F	NGC-4500-TERACH2 – pair of TERA channel adapters
Permanent Link testing for Class F _A , Class F	NGC-4500-TERAL2 – pair of TERA Permanent Link adapters
Channel testing for Category 6 _A /Class E _A , Category 6/Class E and Category 5e/Class D	NGC-4500-6ACH2 - pair of CAT 6 _A Channel adapters
Permanent Link testing for Category 6 _A /Class E _A , Category 6/Class E and Category 5e/Class D	NGC-4500-6ALKIT2 – pair of CAT 6 _A permanent link kits: each consisting of a CAT 6 _A permanent link adapter NGC-AD-6ALINK and a Permanent Link test cord NGC-AC-6ALCORD

Sincerely,

METZ CONNECT GmbH
