

Qg 2 Software Maintenance Plans

VIAVI offers Software Maintenance Plans for the Qg 2 product line. The Software Maintenance Plans extend software support and services beyond the life of the standard 1-year warranty.

The Qg 2 Software Maintenance Plans extend the support provided by the standard 1-year warranty. The Software Maintenance Agreements provide extended coverage for software maintenance, technical support, and hardware troubleshooting services.

Key Features of Technical Support Services:

- Case management of Problem Reports from initiation to closure
- Remote problem diagnostics, troubleshooting and repair via telephone, web site, and/or remote access
- Software troubleshooting and updates as needed
- Hardware troubleshooting up to isolation of faulty hardware; support after troubleshooting has isolated an issue as a hardware fault

Key Features of Software Update Subscription Services:

- Functionality enhancements and performance improvements for software capabilities and options that VIAVI has licensed the Customer
- Formal Defect fixes as required to resolve operational defects in the software
- Documentation detailing Software Update functionalities and the impact on customer systems
